## TERMS OF SALE

1. Every item is guaranteed to be as represented, and to give satisfaction, as in all past Bolender sales.
2. All bids are by mail, in fairness to all those who could not attend personally.
3. There are positively no reserves on any item by anyone, and every lot will be sold to the highest bidder, at so much for the lot. All bids will be executed below your bids where other offers permit, in good faith. Where two or more bids are exactly the same on any lot, or tied, the lot goes to the first bidder at exactly his bid.
4. No unlimited bids will be accepted. Mark your highest limit on the bid sheet (on back page of catalogue) and if you need more space for bids, use any ordinary sheet of paper. We will buy as much under your bids as other actual offers permit.
5. New bidders or customers sending bids for the first time at these sales must positively give first class references, or else send a deposit of at least 25 per cent of the total amount of bids. References acceptable would be the name of some other dealer from whom you have had coins on open account, or name of some collector known us, or else name of your bank. To those known to us who have established credit, purchases will be sent out promptly after the sale. In appreciation of this courtesy, the purchaser will remit promptly. Postage and registration or insurance is paid by the purchaser.
6. California buyers will be charged 4 per cent state sales tax.
7. The terms are prompt cash settlement after sale, and no time given. Collectors who are not certain that they can pay promptly are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.
8. A list of all prices realized at this sale will be supplied for one dollar, if ordered before the sale date.
9. Please send your bids now as there is little time left before the sale.

### MEXICO 8-REALES and PESOS

These silver dollar size coins have become very popular since so many of our people now travel extensively in old Mexico. Until 100 years ago, the old pieces were legal tender in the U.S., and rightly belong in an American collection, having really been an important part of our daily business almost until the Civil War began. It is most interesting to collect them by dates and mints, the same as our own coinage. Your quest may never end, so interest

cannot fade away, and they are not expensive, especially considering that silver is 90c an ounce, almost the highest in history.

#### UNITED STATES PATTERN COINS

Every serious collector of United States coins should become the proud owner of a new book on the United States pattern coins, which is scheduled to be off the press this month. This book has been prepared over a period of years, by Dr. J. Hewitt Judd, who himself assembled one of the outstanding collections of pattern coins of all time. Dr. Judd was president of the American Numismatic Association from 1953 to 1955. Information this book presents will add new interest in this important phase of American numismatics, one of our most beautiful and fascinating series. For more information relative to Dr. Judd's book, please write to me.

2087. **1880 Goloid Metric Dollar.** Somewhat smaller than the regular issue of the year, but larger than half-dollar. The "goloid idea" was to add 15.3 grains of gold and thus produce an easier handled smaller coin. The plan being turned down in committee, it remains as an experimental issue. Obverse has a different head from regular issue, very beautiful. Reverse has value stated two ways, including 100 CENTS. AW-1643. Magnificent proof. This date much rarer than the 1879 Goloid dollar. Not over 15 struck. \$90.

Reverse: value, date, and UNITED STATES OF AMERICA all within wreath, the Paquet reverse. Thus, this coin is a "mule" of AW-279 and AW-276. Copper gilt. Uncirculated choice, and beautiful. From King Farouk coll'n. May be unique. \$300.

#### BEAUTIFUL LOT OF MORGAN SILVER DOLLARS

The silver dollars of the United States, designed by Morgan, and coined from 1878 to 1921, constitute a series that has become one of the most popular to-day. In my 193rd sale held last March, more bids were received and entered on this series than any other. There are several excellent reasons for their popularity. Some collectors are getting tired of paying high prices in some

other series. The Morgan dollars are the most reasonable in price of any series, and never will be cheaper. A number of them have started upward, and we are paying full standard catalogue price for some dates and mints and willing to buy 100 of a kind, at that price. Dollars cost no more than small cents, and you have a larger and certainly more beautiful coin, better for shows and displays. Also in case of panic, or bad times, the face value of your collection is 100 times as much, a consideration that would be helpful should days of darkness come. It is good to assemble a collection in this series, while the choice quality coins in this collection are available. I certainly can not always offer such coins. My stock of Morgan dollars is now the lowest in 25 years, and purchases by me in the past year were the lowest in 10 years, because nothing nice enough had showed up except in small lots. We must also remember the Pittman Act of 1918, when almost a third of all Morgan dollars minted were all melted. Also consider the large quantities that have circulated in the old days, as well as in the thousands of casinos in Nevada to-day. Some day we will realize they are not so common, you may be sure.

END OF SALE — THANK YOU

## COIN COLLECTORS' COLUMN OF COMMENTS

**Estimates in this catalogue**, or the valuations are given as a guide and are generally the Guide Book or catalogue prices of the 11th edition. As these prices were prepared 1½ years ago, it follows that the new catalogue prices already prepared for the new 12th edition of the Guide Book to appear soon will, in many cases, be considerably higher. Therefore, it is to be expected, that many items in this sale will actually sell above my estimates given. Former customers at my sales know that I will do my level best for you with all bids, and buy under your bids wherever possible. Please make your bids higher where coins are already selling above catalogue prices. I wish to avoid making high and unreasonable estimates.

**Rare coins and paper money for everybody** are to be sold in this sale. Not always do we have so wide a variety, that **we do expect a bid sheet** from nearly every person who receives a catalogue. Our mailing list has grown so large over the past half century (with over 20,000 names of collectors on our lists) that it becomes necessary to revise it, due to high costs of printing such a catalogue, and distributing it. Therefore, **IF YOU ARE NOT BIDDING AT THIS SALE, please drop a card or letter in the mail**, requesting that we continue your name on the mailing list. If we do not hear from you, or receive no bids from you, we will consider that you are no longer interested.

**Look at the index** in the back part of this catalogue, to find quickly the many interesting items. There are **beautiful coins and currency** in nearly all series, over 6000 pieces in all, with choice and rare items too numerous to mention any one. The J. Ambrose Long collection was nearly 50 years in its process of completion. Mr. Long lost his life in an auto accident a year ago. He was a prominent civic worker in his community, much beloved by all the people there who knew him, for he was indeed a righteous man. Mr. Long was one of my first customers when I was a very young dealer, and he always selected the finest coins. I sold him his 1885 proof nickel 5-cents for thirty cents. As all collectors should make plans for the disposal of their collections after death, Mr. Long left instructions with his widow, to turn over to me the entire collections. The remaining part will be sold in the next sale.

**Your bids are worth while** at these sales, which are very different from some sales where most items are sold on the floor to room bidders. Since less than 5% of the collectors and dealers are able to attend any public sale in person, I prefer to give every mail bidder equal and fair **opportunity to acquire** any items in these sales. In this sale, every item goes to mail bidders, and you are one of them. Thus, your chance of successful purchase is much greater than at most sales. Every item is sold without reserve, and to mail bidders only.

**Biggest bargain in the sale** will be the price list at only one dollar, if ordered in advance of the sale. You will get from it much interesting information and pleasure, and will profit from the up-to-date record of present-day values. After the sale date, the price is two dollars. Just mark your order in the place provided on the bid sheet. These are mailed first class about a week after the sale.

### THANK YOU!

### THANK YOU!

Many thanks for your kind words and letters. So very many also ask about my health now. From my heart attack of Christmas 1951 complete recovery was made in a year and a half. During 1955 and 1956 I was hospitalized quite a lot, with four times in surgery. But the year 1957 was very good to me health-wise, and I have made complete recoveries. Thank you very much. — M. H. Bolender
